NDETEI ARNOLD MAWEU

Software engineer

PROFILE

As a highly motivated and skilled diploma student in software engineering, specializing in web development. With a strong foundation in software development and engineering theory, I have gained practical experience in web development, with proficiency in HTML, CSS and PHP.

In addition to my **web development** skills, I hold **CCNA** certifications in **networking** and **Linux administration**, as well as basic knowledge in **cyber security**, **software installation**, and **troubleshooting**. This combination of skills allows me to contribute to various IT-related projects and work collaboratively with cross-functional teams.

I have cultured myself as one who can work collaboratively with supervision and also blend well in a team to achieve in accomplishing goals
